Attorney General Garland is confined to his bed.

Secretary of the Treasury, Manning, is dangerously ill. The latest reports are that he is slightly improved.

We have it from good authority that the Big Sandy river improvement appropriation is "all right."

The great railroad strike is virtually at an end, and to-day, after a complete stagnation of commerce in a vast section for more than three weeks, the wheels will once more move on the Gould system. At conference yesterday between Mr. Gould and Messrs. Powderly and McDowell, of the Knights' Executive Committee, an agreement was reached by which the grievances of the employees are to be submitted to arbitration. Mr. Gould telegraphed this to Vice President Hoxie, and Mr. Powderly issued a circular to the Knights, ordering them back to work.—Courier-Journal.

The Congressional race is about to become quite warm. We learn that Mason and Lewis counties are decidedly in favor of Judge Wall, and that Fleming will be for him in the event she has no local candidate. The Judge has been a faithful and true Democrat, and has always worked for Bracken candidates when she had any. For these reasons, Judge Wall claims that our county should aid him, and he proposes to make a thorough canvass of the county. We know he has many warm friends, and trust and believe he will be cordially received.—Bracken Democrat.

Huntington's River Road.

Mr. C. P. Huntington, in a letter to the Maysville Committee, submits his ultimatum in regard to his projected river road. His company will give \$75,000 towards the right-of-way. The counties through which the road will run must raise the remainder for the right of way, and give Mr. Huntington assurance of the fact by the first of April. If they fail the road will not be built on the south shore of the Ohio.

The amount required of the counties to secure the right of way is estimated at \$75,000. There are several counties interested; but two of them, Boyd and Pendleton, have only a slight interest, and not much is expected of them. The remaining counties are Greenup, Lewis, Mason, Bracken, and Campbell. It is thought the amount required will be raised within the time specified.—Commonwealth.

ENGLEWOOD, CLARK CO., KAN.

March 22nd, 1886.

Editors BIG SANDY NEWS: As I landed safely in Englewood, Kansas, I will give you a few items from here for your paper and for the benefit of my old friends in that country.

I can say that this country is fine as far as I have seen. The land is level and rich, and only began to be settled last spring; so the crops were not very large last year, but the prospects for this year are fine.

On the 15th of March, 1886, the first timber was brought to this place to build Englewood, and now it is a nice little town, with a good country around it. The only objections to this country is the scarcity of timber. The people here get most of their timber down in Indian Territory and in the "Neutral Strip," as it is called, and from four to six feet deep. Any one can get a homestead by coming to it; and it will pay any one to get this land while it is so cheap. I know of men in your country who have got little hill-side farms, which it would pay them to sell for only money enough to pay their way out here and get a homestead; and they would make big money.

It is true it might be a little hard living the first year unless a person has means to go on; but it would be better to stand it for a short time than always. This Strip joins the Indian Territory, and nearly all of you have heard what fine and it is; so you may guess what the strip is.

Englewood is 5 miles south of Dodge City and three miles east of the Neutral Strip. It is settling fast—people are coming in gangs all the time; but it will take some time to settle it. It is one hundred and eight miles long and thirty six miles wide.

It will make three counties. The man who gets here first will be all right.

I will not say too much about this country at this time; for my part I am well pleased with it. I will not write any more at this time; but as I learn more I will let you know.

The most of the people in this country live in sod houses. Yours Truly,

A. P. FERGUSON.

Army Architecture Out West.

(Part Nineteenth Letter.)

Army architecture is, as a rule, the meanest in the world, and when I think of the places and houses we had to live in out west it makes me sick. Low ceilings, little cramped-up rooms, bad ventilation, small barracks were the men were crowded together like a herd of sheep—this was the rule in army buildings, and the exceptions were few and far between.

There is nothing of the kind here. The barracks are large, and every man has room to move about, the ceilings are high and the ventilation perfect. In the officers' houses the rooms are large, the ceilings high, and the buildings all well ventilated. There is no cheap paper on the walls to hide the cracks and dirt, but the walls are painted and the rooms solid and clean. The houses have the appearance, inside at least, of city residences, and the evidence of comfort and convenience appear the moment one opens the wide door.

Lingo of the Stock Exchange.

(Chicago Herald.)

Stock exchange lingo is very peculiar. "Conversions" are the exchange of bonds for equivalent shares of stock, such bonds being "convertibles." "Collaterals" are securities of any kind pledged for borrowed money. Pledging them is termed "hypothecation." A "good delivery" is of certificates of stocks or bonds legally issued. "Differences" are money balances paid where stock is not transferred, which seldom happens. To "lead a float" means without interest. To "water" stock is to increase its quantity and impair its quality. To "pass a dividend" is not to pay it.

Variable Stars.

(Arkansas Traveler.)

The brightness of some stars varies periodically, more than a hundred so-called variable stars being known, while many more are "suspected" variables. The periods range from a few days to many years. The variation is usually slight, but is very marked in the cases of Algol and Mira, the former star alternating from the second to the fourth magnitude in a little less than three days, while the latter is a still more remarkable variable, being invisible most of the time and blazing up to second magnitude brilliancy at intervals of eleven months. The most interesting of stars of this class is our own sun, whose brightness is affected by the immense spots which appear on its surface and sometimes cover millions of square miles, and whose period of variability is eleven years.

Death in the Fortieth of a Second.

(Detroit Free Press.)

A learned writer in one of the scientific magazines claims that death by hanging is the most humane method of putting criminals out of the world that has yet been discovered. From numerous observations of executions, and careful computations of time required for the nerves to carry the feeling to the brain, he thinks the pang occasioned by the fall is very brief, and places the time which a man is conscious of his own feelings, after bringing up at the end of the rope, at .025 of a second. In other words, a man who is hung has his senses just one fortieth of a second after the lips are taut.

NOTICE.

The Democracy of Lawrence county are requested to meet in Precinct Convention at their respective voting places, at one o'clock p. m., on Saturday, April 10th, 1886, and appoint delegates to represent their respective voting precincts in the County Convention, which will be held at the Court House in the town of Louisa, Ky., on Monday the 19th day of April, 1886, for the purpose of nominating candidates to fill the various county offices to be elected at the August Election, 1886.

The following is the number of votes each precinct will be entitled to cast in the County Convention: East Fork, 3 votes; Dry Fork, 7 votes; Falls Blaine, 5 votes; Hood's Fork, 3 votes; Peach Orchard, 6 votes; Little Blaine, 4 votes; Rock Castle, 1 vote; Lyon, 3 votes; Louisa, 12; Georges Creek, 5 votes; Cherokee, 2 votes; Bear Creek, 4 votes; Twin Branch, 3 votes. Total, 58 votes.

A full attendance the precinct meetings and County Convention is earnestly requested. By order of the Committee.

Ayer's Cherry Pectoral

Should be kept constantly at hand, for use in emergencies of the household. Many a mother, startled in the night by the ominous sounds of Croup, finds the little sufferer, with red and swollen face, gasping for air. In such cases Ayer's Cherry Pectoral is invaluable. Mrs. Emma Gedney, 159 West 128 St., New York, writes: "While in the country, last winter, my little boy, three years old, was taken ill with Croup; it seemed as if he would die from strangulation. Ayer's Cherry Pectoral was tried in small and frequent doses, and, in less than half an hour, the little patient was breathing easily. The doctor said that the Pectoral saved my darling's life." Mrs. Chas. B. Landon, Guilford, Conn., writes: "Ayer's Cherry Pectoral

Saved My Life,

and also the life of my little son. As he is troubled with Croup, I dare not be without this remedy in the house." Mrs. J. Gregg, Lowell, Mass., writes: "My children have repeatedly taken Ayer's Cherry Pectoral for Coughs and Croup. It gives immediate relief, followed by cure." Mrs. Mary E. Evans, Scranton, Pa., writes: "I have two little boys, both of whom have been, from infancy, subject to violent attacks of Croup. About six months ago we began using Ayer's Cherry Pectoral, and it acts like a charm. In a few minutes after the child takes it, he breathes easily and rests well. Every mother ought to know what a blessing I have found in Ayer's Cherry Pectoral." Mrs. Wm. C. Reid, Freshford, N. J., writes: "In our family, Ayer's medicines have been blessings for many years. In cases of Colds and Coughs, we take

Ayer's Cherry Pectoral,

and the inconvenience is soon forgotten."

BIG SANDY NEWS.

LOUISA, KY.

Geo. N. Butcher was here last week.

Miss Inez Frank is visiting at Catlettsburg.

Alex. Lackey returned Tuesday from Prestonsburg.

Mr. John D. Littlejohn, of Cassville, was in town yesterday.

An immense amount of timber has gone out on the present rise.

Died, on the 26th inst., at Cassville, Jas. Black, of Typhoid fever.

Judge Ireland, of Ashland, attended District Conference at this place.

W. O. B. Ratcliffe, of Pikeville, was here Tuesday looking after his timber.

C. D. Norris and wife went to Paigtsville last Thursday, returning Sunday.

Mr. W. W. Hackworth, of Ashland, attended District Conference at this place.

We are informed that the dwelling of Prof. Wm. Jayne of Flat Gap, was burned a few days ago.

Judge Stewart returned home last week from Prestonsburg, where he has been attending court.

In the case of the Commonwealth against J. D. Barrett for shooting Joe Gauze, Barrett was acquitted.

Mr. R. T. Burns returned from Prestonsburg last Wednesday, accompanied by Mrs. Annie Schumaker.

The protracted rains caused several "slips" along the railroad track yesterday, delaying all trains several hours.

Judge Rice came home Wednesday from Prestonsburg and started Monday for Salyersville, to hold the Magoffin session of Criminal Court.

The Sandy river was higher yesterday than at any other time since the Ohio Valley flood. A great many loose logs passed this place.

Capt. Freese was compelled to stop off the Ingomar one trip on account of the sickness of his wife; who, we are glad to learn, is now improving.

Tom Greenwood outraged a little girl in Martin county last week. His bond was fixed at the small sum of \$300, and failing to give this, he went to jail.

The mite at Drake's Hall for the benefit of the M. E. Church South Tuesday night was very successful, considering the extremely bad weather which prevailed.

George Sample, a young man 19 years old, who had been employed in a drug store at Ironton for about a year was blown to pieces while compounding some chemicals last week.

That slight cold you think so little of may prove the forerunner of a complaint that may be fatal. Avoid this result by taking Ayer's Cherry Pectoral, the best of known remedies for colds, coughs, catarrhs, bronchitis, incipient consumption, and all other throat and lung diseases.

The Steamer Ingomar passed up Sunday morning with about 150 passengers aboard. When about four miles above this place she ran under a tree which knocked both her chimneys off into the river. She came back and left her passengers here, and went to Ironton to get repaired.

"Why, Mrs. B. how do you manage to have such nice light Bread and Biscuit?" "Because I use J. Monroe Taylor's Gold Medal Soda and Saleratus. I never saw any half as good. I like them much better to use with cream tartar than all others. I shall never use any other. If you will try one paper, Mrs. W., you will say the same. It has almost cured my dyspepsia." Most all the Grocers keep it.

Most of our readers doubtless remember seeing a local item in the News some months ago, announcing the death of A. P. Elaws, who left this country for Kansas last fall. We have recently been informed that Elaws is not dead, and that his object in writing this falsehood was to get the benefits of the Ashland Mutual Benefit Association. He also had several other defrauding objects in view.

The American Agriculturist.
FOR APRIL, 1886,
the Editors claim, presents a greater variety of matter than ever has before appeared in a single issue of this periodical. The list of contributors embrace many of the recognized and leading writers of the country. The articles, long and short, number over two hundred, there are eighty-eight full page and smaller engravings, presenting Farm Scenes, Cattle, Horses, Farm Conveniences, House and Barn Plans, new Fruits, new Flowers, numerous designs for the Household Department, etc., etc. The first full page illustration, entitled the "Home Guard Colonel" will attract universal attention. Price \$1.50 per year. Single numbers, 15 cents, 751 Broadway, New York.

The following is a list of the ministers and delegates and where they were entertained, while attending Conference:—Rev. J. H. Jackson at Judge J. M. Rices; Rev. J. H. Wright and A. Thompson, at Rev. S. F. McGung's; Rev. J. D. Garrett, at T. J. Snyder's; Rev. J. T. Johnson, at W. H. Weldeck's; Rev. I. F. J. McKinister and J. Everman, at Neal Burgess'; Rev. R. F. Rice and J. D. Short, at G. Lackey's; Rev. A. Binister and Mr. Warden, at R. T. Burns'; Rev. Z. Meek D. D., at Judge J. E. Stewart's; Rev. W. E. Bogg's at F. F. Freese's; W. W. Hackworth, at Judge E. Wallace's; Rev. J. M. Wilson, at Mrs. Wallace's; Judge W. G. Ireland, at G. W. Castle's; Rev. I. F. Fannin, at J. W. Jones'; Rev. J. F. Parsons, at J. H. O'Brien's.

A Mean Father.
"Pa," said a lazy little boy, as the old man came into the woodshed, "haven't I sawed enough for to-day? I'm getting tired."
"Tired? Why, I bet your mother ten cents that you would have the whole pile sawed before supper."
"You did," shouted the boy as he grasped the saw and expatriated on both hands. "You bet ten cents on me? If the saw holds out I'll win the money."

Some men are too mean to have children.—Rochester Union.
Senator Wallace has secured the passage of one bill through the Senate that affords him much pleasure—the bill repealing the act requiring certain Judicial sales to be advertised in a newspaper. The passage of the bill was especially gratifying to the brilliant (?) Senator from Lawrence, because it took a few dollars out of the coffers of the Democrat. Of the 2800 to 3000 voters of this county, six of them asked for the repeal of this law.—Ky. Democrat.

The above named Senator had a law repealed similar to the above which applied to this county. It must have been for reasons known only to himself for we are unable to find any one who wished its repeal.

Mrs. John G. Carlisle.
In "Pencil Sketches" of Washington society, the following is said of Mrs. John G. Carlisle:

Another lady of prominence, Mrs. Speaker Carlisle, is a Kentuckian by birth, and grouped with all the other ladies of society here, for marked grace, royal bearing and womanly dignity, perhaps is unequalled. She would be selected as the star of the first magnitude in the group. She has beautiful blue eyes, regular and handsome features, hair very heavy, of a dark chestnut color, worn in low Grecian coil back, with short waves in front. Her manner and conversation are as fascinating as polished; her movements and carriage are as graceful and stately as a swan's. With all these charms, it is natural that her weekly receptions and informal entertainments in their parlors at the Riggs have been so popular during this as every other season of her residence in Washington.

Danger! A neglected cold or cough may lead to pneumonia, consumption or other fatal disease. Strong's Peppermint Cure will cure a cold as by magic. Best thing for dyspepsia, indigestion, sick headache and thousands testify.

Why do we have eggs at Easter.

Easter is observed among all Christian people as the anniversary of the great event of the resurrection of Christ. He was dead but returned to life. The egg is taken as an emblematic of a return to life. It is to all appearance dead, but we know that if placed under proper conditions, life will come forth from it. The use of eggs at Easter was adopted from an usage older than our era. It was the custom in very early times to celebrate the return of Spring by making presents of eggs.

"Why does not Easter always fall upon a fixed day. Christmas is always on December 25th. Why should not Easter be fixed with equal certainty?" Easter must always be on Sunday. It is not a particular date that is observed, but a particular Sunday. How to decide upon the Sunday, gave the very early churches much trouble, and there were difference on that account, but the matter was settled at a council held at Nice, in the year 325. The rule was adopted that: "Easter day is always the first Sunday after the full moon, which happens upon or next after March 21st, and if the full moon happens upon a Sunday, Easter day is the next Sunday. This gives Easter day a wide range of dates, as it may occur on any Sunday from March 22nd to April 25th.—American Agriculturist.

District Conference.

[Contributed]
The Catlettsburg District Conference of the M. E. Church South, was held in this place, beginning on Thursday, the 25th, and closing on Monday, the 29th. The conference was presided over by the Presiding Elder, with Rev. W. E. Bogg as Secretary. The session was one of unusual interest. Nine of the fourteen pastoral charges were represented by their respective pastors with a good representation of delegates. Many important issues were discussed in a very spirited way and the brethren indicated that they were wide awake to the interest of the church. The reports from the circuits and stations were encouraging. About eight hundred persons were reported as having united with the church the past year. Prominence was given to religious services during the session, preaching each day by different ministers. The sermons were pointed and impressive. Large audiences attended the services. On Sunday afternoon the Sunday School Conference was held and the programme which had been prepared was carried out and many interesting addresses were delivered.

On Sunday evening the Woman's Missionary Society of Louisa, held a meeting, and addresses were made by Revs. W. E. Bogg, J. M. Wilson, J. H. Jackson and Judge W. C. Ireland and Hon. R. T. Burns. Seven new members were added to the society.

The next session of this conference will be held at Eden, the county seat of Martin county. Delegates elected to the Annual Conference to be held at Charleston, W. Va., were as follows: R. T. Burns, W. W. Hackworth, H. H. Kinmer and J. D. Garrett; alternates, W. H. Waldeck and W. C. Ireland.

The ministers and delegates expressed themselves as being delighted with the people of Louisa, and passed a resolution of thanks for the hospitable manner in which they were entertained.

AN END TO BONE SCRAPPING.
Edward Shepherd, of Harrisburg Ill., says: Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. Have had a jumping sore on my leg for eight years; my doctors said I would have to have the bone scraped or leg amputated. Fused instead, five bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and my leg is now sound and well.

Electric Bitters are sold at fifty cents a bottle, and Bucklen's Arnica Salve at 25 cents a box at R. F. Vinson's Drug Store.

"How are we ever going to get through our Spring and summer's work? We are all run down, tired out, before it begins." So say many a farmer's family. We answer, try Ayer's Sarsaparilla. This is just the medicine you need, and will pay compound interest on the money it cost you.

GOOD RESULTS IN EVERY CASE.
D. A. Bradford, wholesale paper dealer of Chattanooga, Tenn., writes, that he was seriously afflicted with a severe cold that settled on his lungs; he tried many remedies without benefit. Being induced to try Dr. King's New Discovery for consumption, did so and was entirely cured by use of a few bottles. Since which time he has used it in his family for all Coughs and Colds with best results. This is the experience of thousands whose lives have been saved by this Wonderful Discovery.

ACCIDENTS WILL HAPPEN.

They may happen to YOU. They are happening every day to thousands of people and in thousands of different ways—from the railroad collision to the treacherous banana-peel.

You cannot prevent accidents, but you can insure against them in THE UNITED STATES MUTUAL ACCIDENTS ASSOCIATION of New York, the largest and best institution of its kind in the world. FIVE DOLLARS will make you a member, and about \$13 a year will carry a policy that guarantees to those having a preferred occupation \$5000 in the event of death by accident or \$25 per week in case of disabling injury.

No professional or business man can afford to be without accident insurance when so small an outlay secures so large an indemnity in the event of serious accident, at a time when most needed.

Happiness

results from that true contentment which indicates perfect health of body and mind. You may possess it, if you will purify and invigorate your blood with Ayer's Sarsaparilla. E. M. Howard, Newport, N. H., writes: "I suffered for years with Scrofulous humors. After using two bottles of Ayer's Sarsaparilla, I

Found

great relief. It has entirely restored me to health." James French, Atchison, Kans., writes: "To all persons suffering from Liver Complaint, I would strongly recommend Ayer's Sarsaparilla. I was afflicted with a disease of the liver for nearly two years, when a friend advised me to take this medicine. It gave prompt relief, and has cured me." Mrs. H. M. Kidder, 41 Dwight st., Boston, Mass., writes: "For several years I have used Ayer's Sarsaparilla in my family. I never feel safe, even

without it. As a liver medicine and general purifier of the blood, it has no equal." Mrs. A. B. Allen, Winterpock, Va., writes: "My youngest child, two years of age, was taken with Bowel Complaint, which we could not cure. We tried many remedies, but he continued to grow worse, and finally became so reduced in flesh that we could only move him upon a pillow. It was suggested by one of the doctors that Scrofula might be the cause of the trouble. We procured a bottle of

AYER'S Sarsaparilla

and commenced giving it to him. It surely worked wonders, for, in a short time, he was completely cured."

HATCH CHICKS BY STEAM

With the Most Perfect and Successful Method of Hatching Eggs.
THE CRAIG FOLDING INCUBATOR.
Simply itself. No lamps, no clockwork, no regulators, no egg-wipers, or other contrivances to get out of order. No cost or experience, and very little labor and time in operating. Needs no watching. Hatches all fertile eggs in the shortest time. The eggs are placed in a nest on natural soil in the lower portion and receive the necessary heat from a tank of warm water in the lid. Proper heat is maintained by drawing off a part of the water twice a day and replacing with boiling water, about 10 quarts at a time for smaller size.

EARLY HATCHED CHICKS sell at from 50c to \$1 per Pound.
It is also a **Brooder** and will care for the chicks as long as they need artificial heat, thus saving expense of special brooder. Both as an incubator and as a brooder it is unsurpassed by any machine, no matter what the cost, and is the safest, cheapest and most easily managed contrivance for public favor. The Craig Incubator can be run with profit at any season. Any person should have a paying hatch the first time. It hatches in from 15 to 24 days, and equals the best work of the hen.

LADIES.—You thousands who are struggling for pecuniary independence will find artificial rearing of poultry a most profitable home industry. It requires the least possible capital. Does not interfere with household duties. The same fire that prepares the meals can heat water for an incubator.

22 BROADWAY, NEW YORK.
From 30 eggs I hatched 100 and have 5000 healthy chicks in the Craig Incubator. You need not buy a brooder. I will send you a plan for brooder and incubator, and a full set of instructions, for 10c.

D. C. HATCH.
Hatchery, Ill.—Third trial, out of 25 eggs hatched 85 chicks. Had very good success first trial. Never had a finer lot of chicks.
